## Solis Mammography: The pain and joy of improvement at scale

- Chirag Parghi, M.D., M.B.A.  
*Chief Medical Officer, Solis Mammography*

8/23/2023

# About Solis Mammography

The nation's largest independent provider of breast screening and diagnostic services

**1M+**

- Serves more than **1 million** women each year.

**100+**

- Operates more than **100** locations in the U.S.

**30+**

- Helping women achieve breast health for more than **30 years**.

# Cohort 1: April to November 2022

# Project Team

- 2 Strategic locations chosen:
  - Rose Medical Denver (large)
  - Progressive BelAir MD (small)
- Project Sponsor: Chirag Parghi, MD
- Each site project team consisted of:
  - Team Leader (the local center director)
  - Physician Leader (LIP)
  - QI Coach
  - Team of 3-4 Staff Technologists

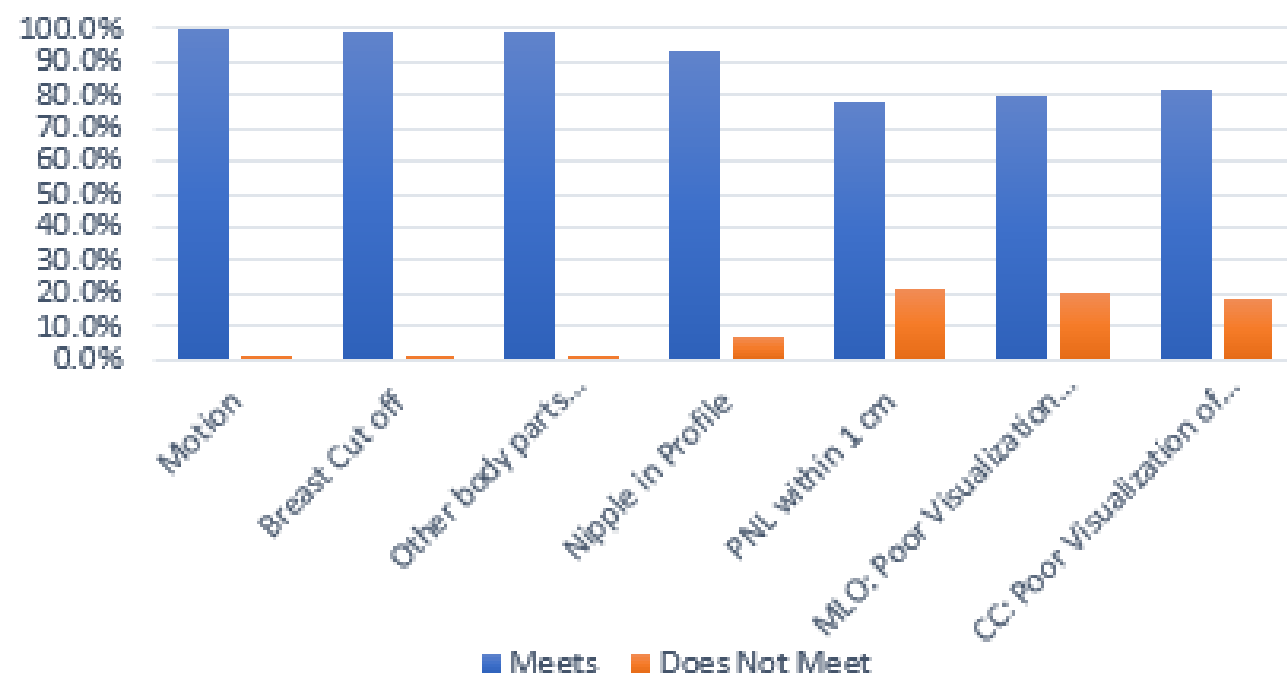

# Initial Audit Data

236 screening mammograms  
between Apr-May 2022

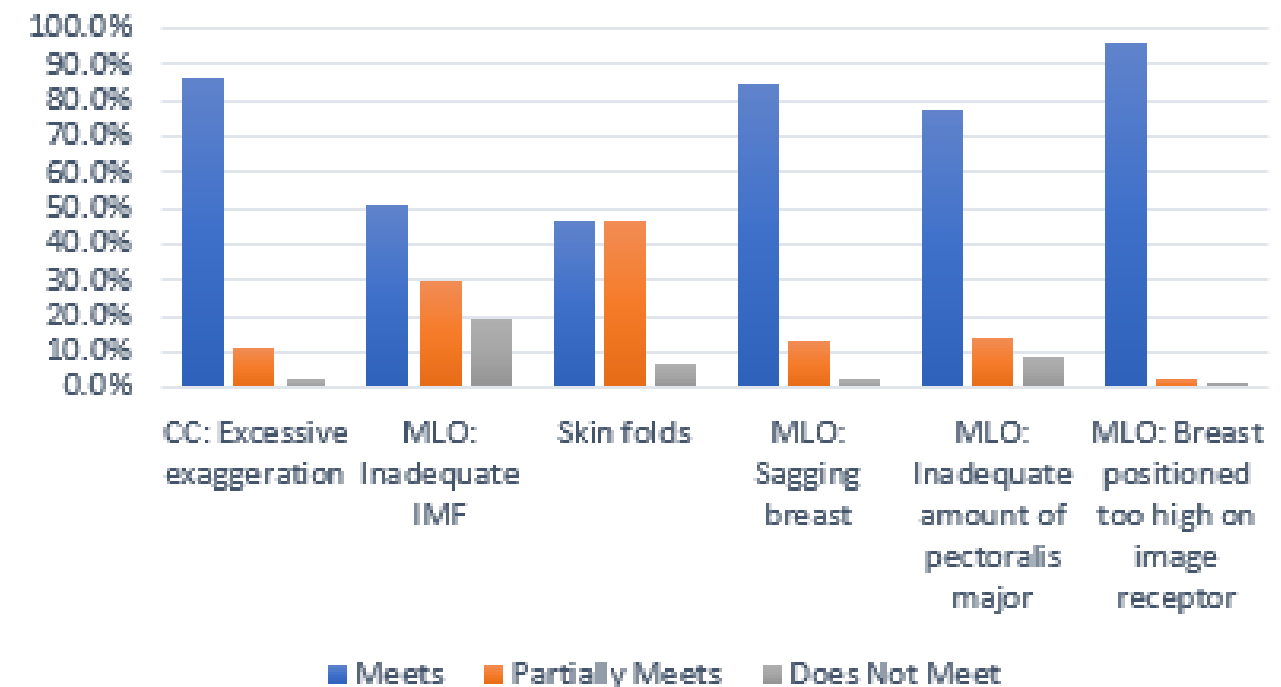

## Overall Case Score (Pass/Fail)

### Major Criteria

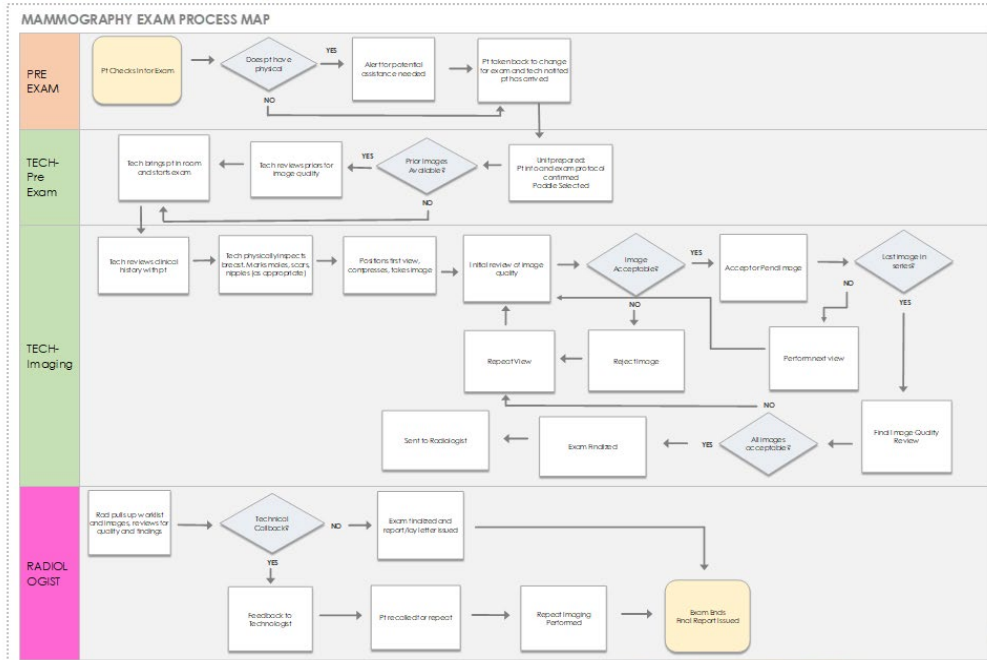

### Minor Criteria

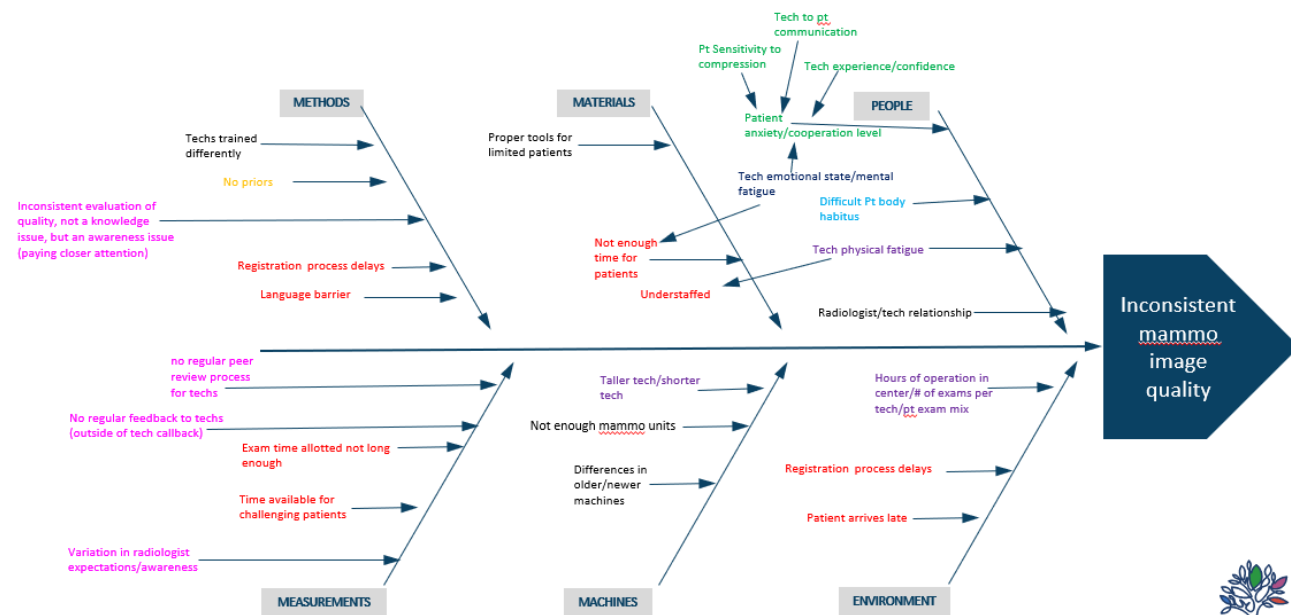

# Analysis

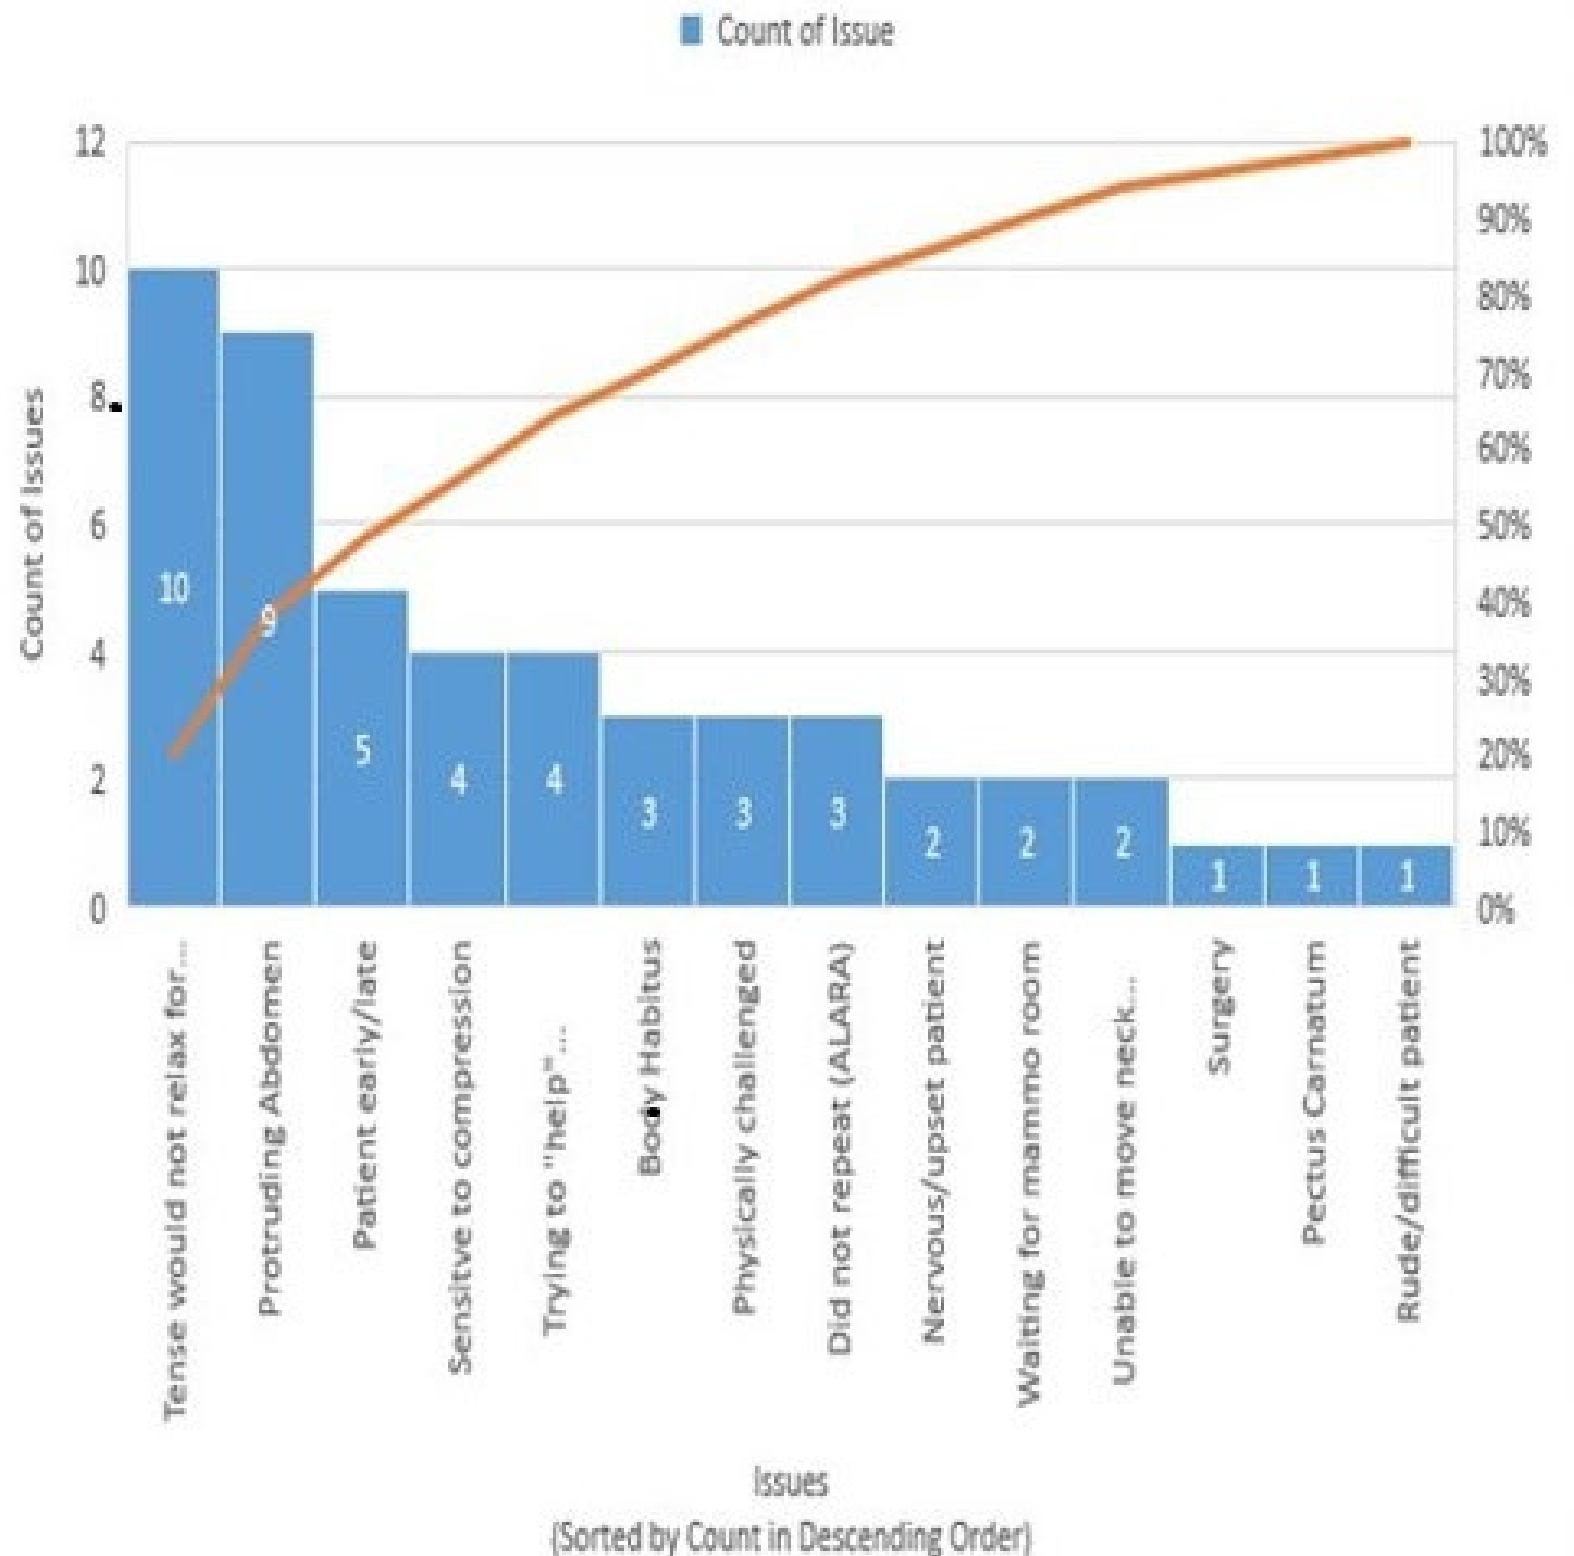

## Process Map

## Cause and Effect Diagram

## Pareto Analysis

# Key Drivers

## Root Causes

Patient cooperation/understanding of positioning importance

Difficult body habituses

Lack of standardization on quality

Feedback limited to EQUIP and technical recalls

Variances in technologist training and background

## Key Drivers

Improved patient education

Alignment on what defines image quality

Image quality feedback system

Technologist coaching on positioning troubleshooting

Structured new tech onboarding

Empowered technologists

# Interventions

Improved patient education

***Better Education = Better Cooperation = Better Imaging***

Technologist coaching on positioning troubleshooting

Structured new tech onboarding

Reliability Level:	Maturity Bars:	Progress	Barrier
(1) Individuals: Feedback, checklists, training, basic standards	0: Untested idea		
(2) Procedures: Embedded standard work, reminders, constraints	1: Early tests / PDCA		Abandoned
(3) Systems: Process design, fail safes, physical layout, built-in feedback, automated systems, concentration of responsibility	2: Multiple PDCA's		
	3: Early implementation		
	4: Working well in operation		

- Patient Education Sheet
- Tech to Patient Communication
- Pink ribbon for feet position

- Positioning Articles/Videos
- Case of the month
- Positioning coach

- Standardized method
- Quality standards
- Auditing positioning skills

# Interventions

Alignment on what defines image quality

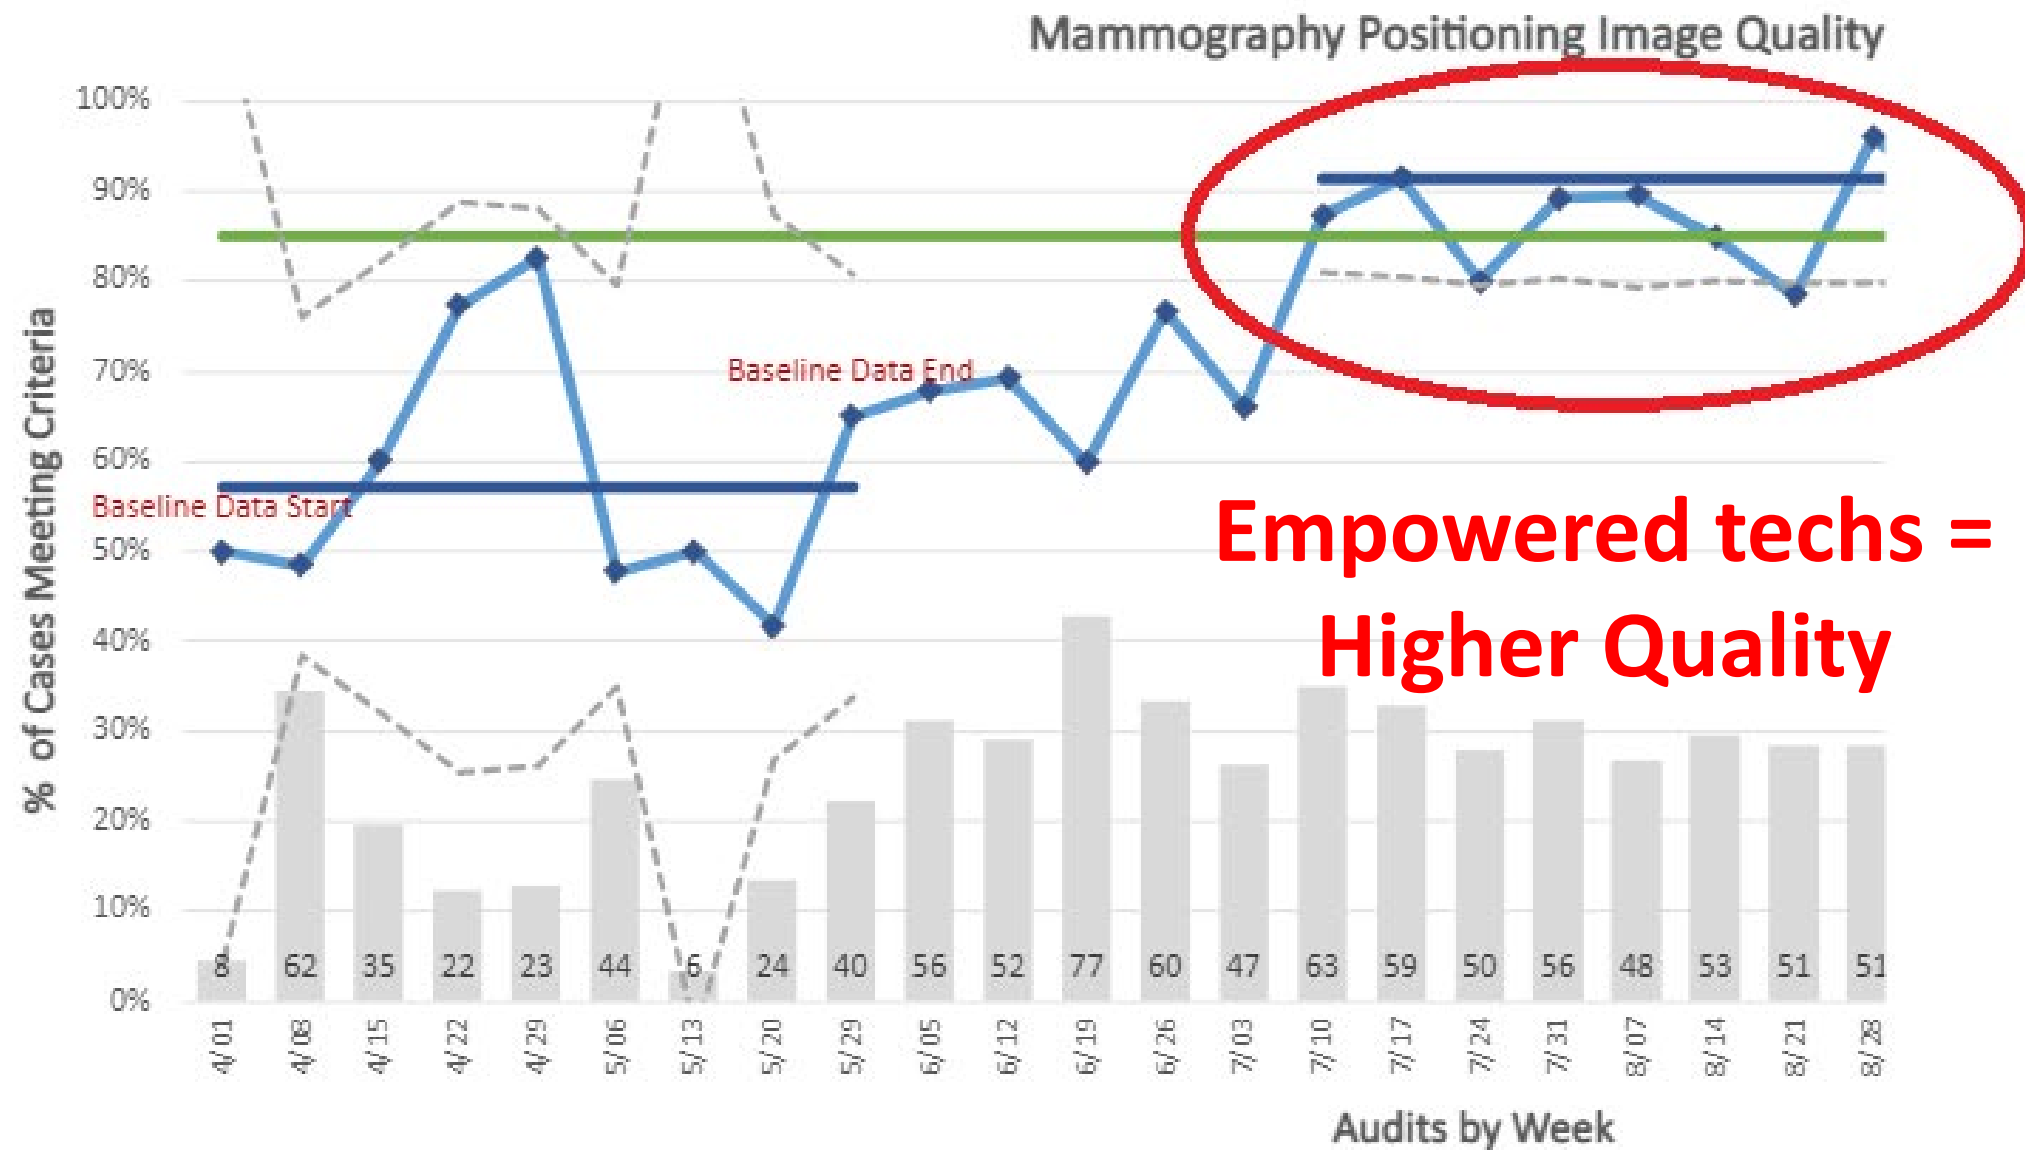

Image quality feedback system

Empowered technologists

Reliability Level:	Maturity Bars:	Progress	Barrier
(1) Individuals: Feedback, checklists, training, basic standards	0: Untested idea		
(2) Procedures: Embedded standard work, reminders, constraints	1: Early tests / PDCA		
(3) Systems: Process design, fail safes, physical layout, built-in feedback, automated systems, concentration of responsibility	2: Multiple PDCA's		
	3: Early implementation		
	4: Working well in operation		

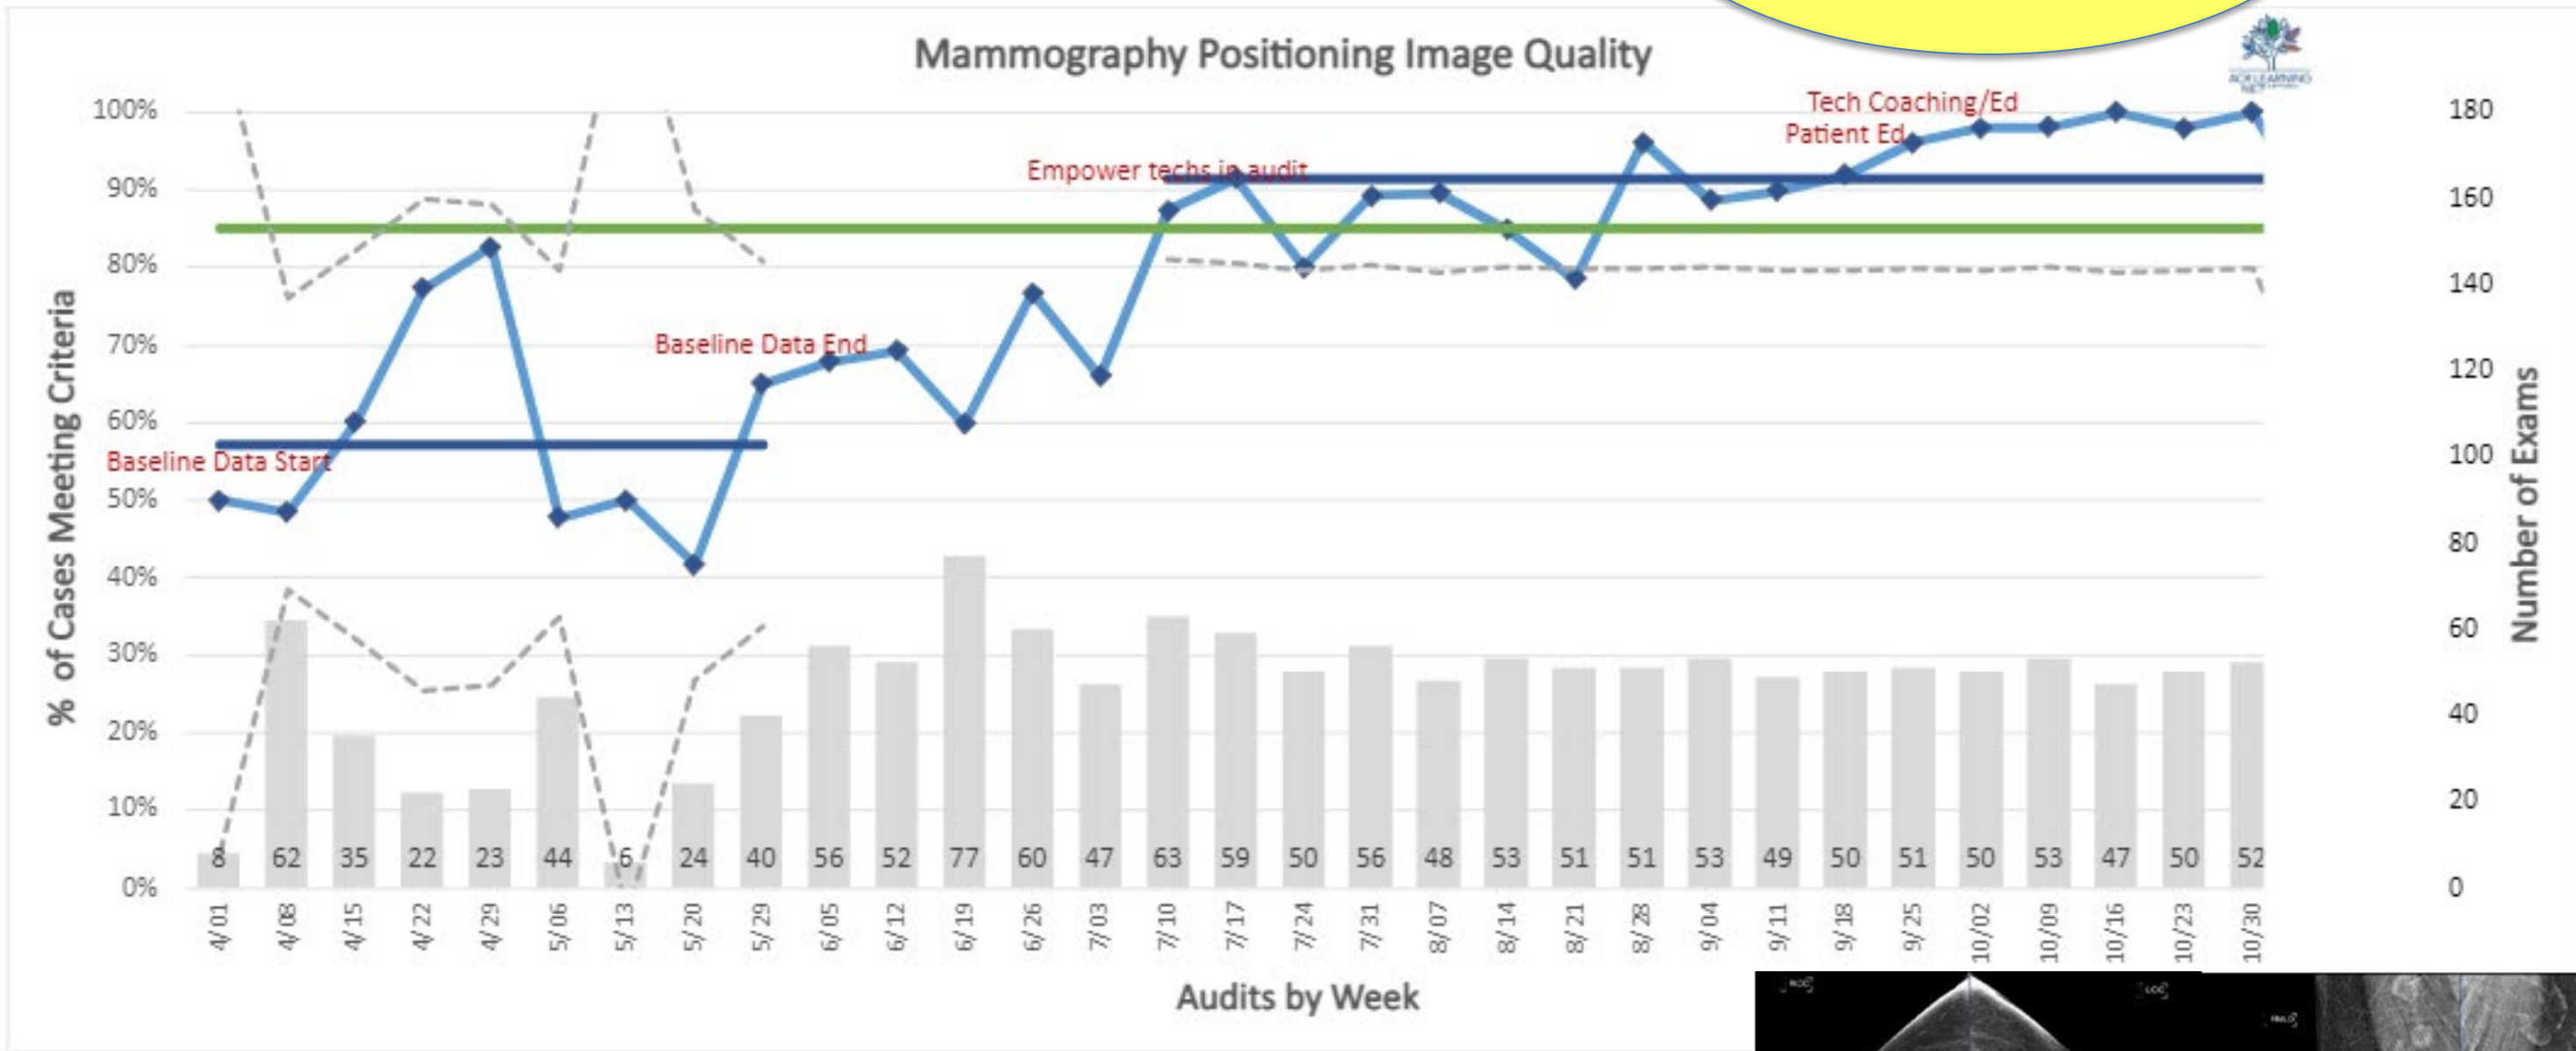

- Educational tool with examples of quality images
- Meaningful feedback from Rads to techs
- Regular random audits
- Techs engaged in audits
- Learning together, accountability

# Results

# Results

**Sustained trend  
ABOVE 85% for  
10 weeks!**

# Empowerment is KEY!

# Cohort 2: March to September 2023

# Evolution of Learning

# My learning lessons from the ACR Mammo Collaborative

- Change is the healthy antidote to complacency
- Ambiguity and subjective self-evaluations of quality aren't good enough
- Meaningful improvement requires deep introspection before action
- Change at scale is different from change in a clinic
- Tight labor markets are opportunities for creativity!
