RADPAC Contributions to Candidates

Thank You from the Chairman

RADPAC wants to thank all of its contributors for supporting the future of radiology through their generous contributions. RADPAC enjoyed another record-breaking year in 2008 as a result of these contributions.

The spectrum of RADPAC activities, from direct campaign contributions, to imaging policy discussions at fund raisers, to hands-on education of members of Congress at radiologists' practice sites, provides the ability for our specialty to directly and effectively advocate our important issues to those members of Congress who can create the legislation and policies so vital to the success and preservation of our specialty and to the continued well-being of our patients.

This would not be possible without the thousands of generous contributions to RADPAC from responsible, concerned radiologists. I am particularly grateful to those 48 groups that have achieved 100 percent participation of their members.

Thank you all.
