

## CPI eBooks for Residents

For more than two decades, the ACR Continuous Professional Improvement (CPI) program has delivered the most current, content-rich casework directly from the present-day practices of leading subspecialists. More than 200 distinguished experts create CPI self-assessments in essential areas of ABR-required study.

- Review imaging studies across multiple modalities
- Answer self-paced questions on case diagnosis and management
- Learn from rationales and detailed, expertly annotated images
- Research current references for further study

For a limited time, the ACR is making CPI modules available in eBook to residents and residency programs at no cost. Click on a title below to download the ePub file.

Decide how you wish to view your eBook (computer vs. mobile device) and download the necessary eReader software prior to downloading your eBook. [Download eBook Help/FAQs.](#)

Modules on additional topics have been added for your selection.
