Much thanks to @ACRRFS and all who participated today of this amazing #RadResChat! Interview season is upon us, and I'll be around Twitter more often, hoping to answer questions and be of any help to applicants and colleagues. Best of luck everyone!

Nikitas Rodríguez @NikitasRodz

I want to congratulate @AminaFarooqMD, @skeletalrad, and @ACRRFS for the creativity of this #radreschat initiative. It has been super helpful to read these Q&As before the interviews. Thank you!

Kamyar Ghabili, MD @kghabili

@AminaFarooqMD @ACRRFS 🙌 Agree! Shoutout to @christine_oms for the best tweet of the day! We should not see this time as a competition. We all will be future colleagues in Radiology. #RadResChat https://t.co/SV5iQhgJAB

Amina Farooq @AminaFarooqMD

3. Be mindful of your online presence. Make social media accounts private if you're concerned about irrelevant content leaking. 4. Avoid excessively reaching out to programs. If you have reached out once or twice to indicate interest, that's more than enough. #RadResChat

Nathan Coleman, MD @NColemanMD
T1: Personal statements are rarely the best way to distinguish an applicant Be honest and succinct.
I tend to dislike introductory quotes, but that's just me 🤔 Remember it isn't undergrad creative
writing, despite it being radiology, avoid "dark and stormy nights" #RadResChat

Arif Musa, MS, MS-IV @Arifus_Musae
@ACRRFS Quick tip for those applying. Remember to check PDF view on your ERAS application
to see how it will look as a PDF printout. It's often these printouts that will be seen by your
application reviewer, so double-check that it looks organized! #RadResChat
