Before we begin, check out these quick tips on how to follow along and participate during the #RadResChat! Looking forward to the discussion. https://t.co/82ERdBOyez

Carolynn DeBenedectis @c_debenedectiMD

Hello! I am Carolyn DeBenedectis Vice chair for education at @UMassRadiology

Ashley Aiken @ENThawk

@ACRRFS I'm Ashley Aiken, the program director of the neuroradiology fellowship at @EmoryRadiology. Welcome to all residents and future radiology fellows #radreschat
ichmitt @chels2718

Hi! I'm Chelsea Schmitt an R2 at @MiRImaging. Looking forward to the discussion tonight! #radreschat

ACR RFS @ACRRFS

Let's get started! T1: What can I do in training to make myself a more competitive fellowship applicant? #RadResChat https://t.co/QBMs5Eqb8x

Hafsa S. Babar @HafsaSBabar1

RT @ACRRFS: Welcome to the #RadResChat tweet chat! 🌟 Tonight we’ll share our best advice to help you ace the #RadFellow application process. Who’s joining us tonight? Please introduce yourself! 🌟 Also don’t forget to mention “#RadResChat” in every post during the discussion! 🌟 https://t.co/g53jXemPnB

Jess Wen, MD PhD @JessTwen

Carolynn DeBenedectis @c_debenedectiMD

T1: a couple things (1) work really hard as a resident, read large volumes of cases and build your knowledge base so you get great LORs

ACR RFS @ACRRFS

Great ideas, Dr. Aiken! #RadResChat

Ashley Aiken @ENThawk

@ACRRFS T1 And also: •Find mentors to help guide you along the way •In general, your genuine interest will make you a competitive applicant. #radreschat

Carolynn DeBenedectis @c_debenedectiMD

T1: (2) get involved in research and publish that research to add to your CV and show fellowships you have the skills to do research and publish as a fellow

Vishesh Jain @lifeofsmilez

@ACRRFS Hello y'all! I’m Vishesh from CA, applying to #pedsrad fellowship this fall. Love MedEd, ethics, medical humanities. Excited to join this #RadResChat!

T2: What are some key questions to ask when evaluating a fellowship program? #RadResChat https://t.co/Xzwmv2mrkB

Carolynn DeBenedectis @c_debenedectiMD
16 hours ago
T2: ask about fellow culture and program culture: do fellows get together outside of work? How do attendings and fellows interact? #RadResChat

Ashley Aiken @ENThawk
16 hours ago
@ACRRFS T2 – ? to ask fellow programs - What is the general exposure- volume, rotations, procedures- for neuroradiology for instance- how much spine vs H&N vs functional brain vs ped - How much exposure to referring clinicians who understand multidisciplinary patient care? #radreschat

Ashley Aiken @ENThawk
16 hours ago
RT @ACRRFS: T2: T2: What are some key questions to ask when evaluating a fellowship program? #RadResChat https://t.co/Xzwmv2mrkB

Carolynn DeBenedectis @c_debenedectiMD
16 hours ago
T2: what type of jobs do fellows get? Private practice or academic? Do fellows have their pick of jobs from that program? Where have they gone? #RadResChat
specific advice for getting a feel of the culture of a fellowship program during virtual interviews? Is it acceptable to ask to speak with current fellows? #radreschat

Carolynn DeBenedictis @c_debenedectiMD
T2: ask about diagnostic and procedural volumes that the fellows get exposed to. Also what kind of didactic do they get? journal clubs? Simulations?

Ashley Aiken @ENThawk
@ACRRFS T2 - more ? •Any recent or planned major changes? •Success of recent graduates? •Work-life balance? - these questions can be tricky to ask, but it is important to understand how a program values this •What is the approach to diversity? #DEI #radreschat

Carolynn DeBenedictis @c_debenedectiMD
T2: what research opportunities are available to fellows? #RadResChat

Chelsea Schmitt @chels2718
@c_debenedectiMD T2: In a similar vein, what do you think is the relative importance of pursuing a fellowship in a geographic area you want to practice in vs a program with a stronger academic reputation? #RadResChat

ACR RFS @ACRRFS
@chels2718 ♥ this! Speaking with current fellows is a great way to hear a firsthand account of work-life balance and workplace culture! #RadResChat

Vishesh Jain @lifeofsmilez
@ENThawk @ACRRFS Love these. Regarding the latter - I think presenting at interdisciplinary conferences/tumor boards is a valuable experience. When asking about opportunity/expectation for fellows to do so, what would be a healthy #/year in your minds? Eg 4 conferences/year? 8?
#radreschat

Brent Weinberg, MD, PhD @BrentWeinberg
I present a lot at tumor boards and we try to include fellows as much as possible. I don’t think there is a specific number, but getting involved in a variety (e.g. brain tumor, head & neck cancer, thyroid, etc.) exposes you to a wider range of information. #radreschat

Yasha Gupta, MD @yashaguptamd
@c_debenedectiMD Also ask about fellow-specific didactics!!! #radreschat
