Looking forward to having everyone join us tonight! So let's get started! 🤝 #RadResChat https://t.co/DNX9A1c9DI

Hey everyone and welcome to our Radvocacy 101 #Radreschat! My name is Aaron Bush and I am a third year radiation oncology resident @MayoFL_RORes Looking forward to a discussion that could not be more important to the field of radiation oncology right now!

Hi all, looking forward to participating in tonight's #RadResChat
Before we begin, here are some quick tips on how to follow along and participate during tonight’s #RadResChat. Looking forward to the…

RT @ACRRFS: Hi all, looking forward to participating in tonight’s #RadResChat

Advocacy is first and foremost about ensuring that our patients have easy access to high-quality and affordable care. However, a startling number of people have been essentially shut out of American healthcare. We need to do better, and advocacy is how we get there.

T1: (1/2) Might sound a little cheesy, but advocacy should be about the present and future. It’s recognizing what issues and practices are important now and then doing something/raising awareness about them.

This!

@AlexanderRandMD Welcome! Excited to have you here!

RT @APodMD: T1: (1/2) Might sound a little cheesy, but advocacy should be about the present and future. It’s recognizing what issues and pr...

T4: In a word of social injustice, I advocate for #equity. We need to bridge disparities regarding access to quality healthcare for marginalized populations. We need to foster a diverse workplace to better serve the needs of our diverse patient population.
