 Advocacy is first and foremost about ensuring that our patients have easy access to high quality and affordable care However, a startling number of people have been essentially shut out of American healthcare We need to do better, and advocacy is how we get there #RadResChat  

**Alex Podlaski, MD, MS @APodMD** 14 hours ago  
 T1: (1/2) Might sound a little cheesy, but advocacy should be about the present and future. It's recognizing what issues and practices are important now and then doing something/raising awareness about them. #RadResChat
