

## Meet 2018 MIPS Improvement Activity Requirements With R-SCAN

2018 MIPS Performance

In 2018, the Improvement Activity (IA) category for the Merit-based Incentive Payment System (MIPS) will count for 15% of the total MIPS Performance Score. To meet full requirements for the IA category, physicians will be required to complete 1–4 activities — depending on their patient-facing status and the weight value assigned to the activity.

R-SCAN is confirmed to meet requirements for 7 medium-weight Improvement Activities. Therefore, successful completion of **one R-SCAN project** has the potential to **completely fulfill** IA requirements for this year!

Improvement Activities will be reported to CMS by attestation, which physicians will submit through whichever MIPS reporting method they choose. For participants of the **ACR National Radiology Data Registry — a Qualified Clinical Data Registry (QCDR)** — the online portal will include an IA attestation module.

### Completion of an R-SCAN project can potentially fulfill requirements for the following MIPS Improvement Activities:

Activity ID	Activity Category	Activity Name
IA_BE_12	Beneficiary Engagement	Use evidence-based decision aids to support shared decision making
IA_CC_7	Care Coordination	Implementation of regular care coordination training
IA_PSPA_16	Patient Safety and Practice Assessment	Use of decision support and standardized treatment protocols
IA_PSPA_17	Patient Safety and Practice Assessment	Implementation of analytic capabilities to manage total cost of care for practice population
IA_PSPA_18	Patient Safety and Practice Assessment	Measurement and improvement at the practice and panel level
IA_PSPA_19	Patient Safety and Practice Assessment	Implementation of formal quality improvement methods, practice changes or other practice improvement processes
IA_PSPA_2	Patient Safety and Practice Assessment	Participation in MOC Part IV  R-SCAN is approved by the American Board of Radiology and the American Board of Internal Medicine for the fulfillment of Maintenance of Certification.
