## Course Dates

January 27–28 (Mon. – Tues.)    September 21–22 (Mon. – Tues.)

April 20–21 (Mon. – Tues.)    November 16–17 (Mon. – Tues.)

## Course Overview

This 100-case, two-day course led by course directors Wendy DeMartini, MD and Roberta Strigel, MD, is designed to provide practicing radiologists with an intensive, hands-on experience in reading breast MR. Throughout this program, participants will develop their interpretive skills through extensive case reviews at individual workstations. In addition, hands-on MRI-guided biopsy workshops will provide training in accurate and safe MRI-guided biopsy techniques.

## Program Objectives

At the conclusion of this course, participants will be able to:

- Assess the clinical role of breast MRI in patient selection and in improved detection, diagnosis and treatment of breast disease
- Interpret imaging protocols and techniques to produce high quality breast MR images in keeping with current recommended standard
- Accurately and efficiently interpret and report on breast MR exams in accordance with the *ACR BI-RADS® Atlas*, Fifth Edition, MRI Module
- Utilize breast MR-guided biopsy tools effectively and safely

## Workstation

DynaCAD or CADstream

## Certificate

Attendees who complete a minimum of 100 cases will be awarded a Certificate of Proficiency stating they meet the Maintenance of Competence case requirement as specified in the *ACR Practice Parameter for the Performance of Contrast-Enhanced Magnetic Resonance Imaging (MRI) of the Breast*.

Accreditation Statement: The American College of Radiology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement: The American College of Radiology designates this live activity for a maximum of 22.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Qualified on 12/14/2018, this activity meets the American Board of Radiology's criteria for a self-assessment (SAM) activity and is designated for up to 22 SAM Credits toward the ABR Maintenance of Certification program.
