Scenario

• Your group has seen substantial growth in the need for advanced stroke imaging
• You do not have enough sub-specialty certified neuroradiologists currently to provide 24/7 coverage
• You are assigned with putting together a task force to address this need
Goals for your task force

- Who will you put on the team and why
- How will you address these issues
- What team problems and conflicts do you foresee and how will you address them
Questions?
Thanks!
