Building Collaborative Teams (Druskat)

In this interactive session, we'll use the Team Emotional Intelligence Model to learn the particulars of building high performing, collaborative, teams. We'll learn how to apply the model by using it to assess teams in video case studies, and then by assessing one of your teams. You'll leave the session with a concrete action plan for improving your team’s collaboration and performance.

Learn the challenges and opportunities that emerge when building or leading collaborative teams.

- Learn the details of the Team Emotional Intelligence Model and how the model is used by leaders to improve team collaboration
- Learn how to use the model to assess one of your own teams and use the assessment results to create an action-plan for your team’s development
