

Navigating the Quality Improvement Project Instructions

1. Review the R-SCAN content on the ACR website for the benefits of participation and the projects 3 phases at acr.org/rscan.
2. Check out the [Topics and Resources](#) for the list of R-SCAN Choosing Wisely® topics and educational materials.
3. Consult information about [earning MOC and PI-CME credits](#) through R-SCAN participation.
4. Read about the success of other practices on the [R-SCAN in Practice](#) page.

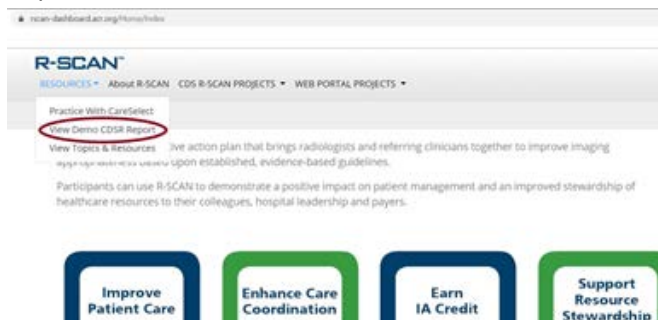

Navigating the Password-Protected Workspace

Prior to accessing the CDS Registry (CDSR) report, the corporate account administrators at facilities currently participating in one of more of the National Radiology Data Registries can simply check off CDSR participation in the NRDR portal. The National Clinical Decision Support Company, the CareSelect vendor, also requires a sign off on a brief data transfer agreement. [Visit the CDSR](#) page for more participation information or contact RSCANinfo@acr.org with questions.

Upon CDSR participation sign off, facility authorized persons are provided access to view the CDSR report and to use the report to conduct an R-SCAN quality improvement project as described below.

Accessing the CDS Registry Data

1. **Log in to the password-protected R-SCAN Dashboard:** An ACR username and password are required and can be set up at [Create an account](#).
2. **Review a demo CDSR report:** From the “Resources” sub-menu, select “View Demo Report.”

3. Practice using the filters: Try different filter combination to see how results can be displayed. [Check out the video](#) demonstrating how to navigate the report.

4. Access facility CDS data: From the “CDS Registry Projects” dropdown menu, select “CDS Registry Report” to access the CDS report. Only facility-authorized persons are granted permission to view the report.

5. Investigate areas requiring improvement: Bring key personnel together to determine opportunities for improvement.

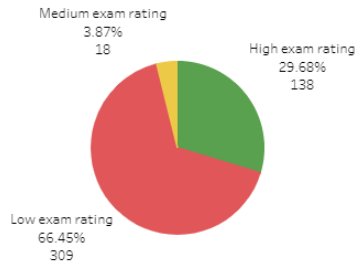

6. Use the report to carry out an R-SCAN project: Select a baseline date range and, after the educational intervention, the post-education date range.

7. Register a project:

- From the “CDS Registry Projects” main menu, select “Registrations”

- Click the “Add Project” button to begin a registration.

- Follow the brief registration instructions to confirm the topic and participants.

Practice With CareSelect

Topic Specific Resources

Participants can use R-SCAN to demonstrate a positive impact on patient management and an improved stewardship healthcare resources to their colleagues, hospital leadership and payers.

- Improve Patient Care
- Enhance Care Coordination
- Earn IA Credit
- Support Resource Stewardsh

Two R-SCAN Participation Options

CDS R-SCAN Registry Participation

The CDS R-SCAN Registry, now in pilot phase, is one of seven registries under the American College of Radiology's National Radiology Data Registry (NRDR). Currently, participation is available for facilities that have the CareSelect™ Imaging/CA clinical decision support (CDS) platform.

Select “CDS R-SCAN Registry” to get started or [Learn More >>](#)

11. **Questions?**

The R-SCAN team would be pleased to set up a demonstration and to help you get your project off the ground. Contact us: rscaninfo@acr.org
