INTRODUCTION
This Policy Progress Report provides the disposition of resolutions presented at the 2014 ACR Annual Meeting and Chapter Leadership Conference (AMCLC) that were not identified as completed in the December 2014 Policy Progress Report (available online).

Included at the end of this report are those policies adopted prior to AMCLC 2014 that the CSC has designated as “in progress” and requiring further action.

Per Resolution 40 passed at AMCLC 2013∗ policy progress reports will be provided to the Council six months following the annual meeting and every six months thereafter as needed until each policy’s completion.

*(Digest of Council Actions – Section I, E. Council, 2. Resolutions, c. Policy Progress Reporting)

RESOLUTIONS PASSED (2014) THAT REQUIRE FURTHER ACTION

• n/a

RESOLUTIONS CARRIED FORWARD FROM PREVIOUS YEAR(S)

Res. 9 (2012) Implementation of the Clinical Practice of Interventional Radiology (IR) and Interventional Neuroradiology (INR)

BE IT RESOLVED,
that the ACR work with SIR and SNIS to continually enhance and promote the growth and sustainability of IR and INR clinical services within the practice of radiology and within the health care system, and

BE IT FURTHER RESOLVED,
that the ACR create a Task Force to define and prioritize the business needs of IR and INR clinical practices, and develop implementation and marketing tactics with respect to optimizing clinical practices in radiology. The task force should have appropriate representation from the ACR, SIR, SNIS, and other stakeholders, and

BE IT FURTHER RESOLVED,
that the ACR Radiology Leadership Institute (RLI) consider the necessity of a longitudinal patient care model for IR and INR in designing its curriculum and include the appropriate course content to address that need, and

BE IT FURTHER RESOLVED,
that the ACR, in partnership with the SIR and SNIS, embark upon an educational campaign to promote and demonstrate the value of IR and INR clinical practices to patients, physicians, allied health providers, radiology practices, public and private third-party payors, and health care organization leaders; including but not limited to web-based information, printed materials, audio/visual media, and targeted conferences, and

April 2015
BE IT FURTHER RESOLVED,
that the ACR work with the SIR and SNIS to disseminate to radiology practices the existing support tools that facilitate the implementation of optimal IR and INR clinical practices.

Most recent action:
The article authored by Resmi A. Charalel, MD, Geraldine McGinty, MD, MBA, Michael Brant-Zawadzki, MD, Scott C. Goodwin, MD, Neil M. Khilnani, MD, Alan H. Matsumoto, MD, Robert J. Min, MD, MBA, Gregory M. Soares, MD, Philip S. Cook, MD titled “Interventional Radiology Delivers High-Value Health Care and Is an Imaging 3.0 Vanguard” has been published and is available online at http://www.jacr.org/article/S1546-1440(14)00725-X/abstract.

Through the efforts of Dr. Cook's Task Force, a strong collaboration has been formed between leadership and staffs of ACR and SIR that was demonstrated at the recent SIR annual meeting where two new projects were showcased: A new series of IR Case Studies, and an IR Quality Registry

Both projects are co-branded by ACR and SIR. The case studies will be featured in the Imaging 3.0 microsite on acr.org and linked from SIR website. Up to 10 case studies will be completed in 2015 and each will feature the IR Clinical Practices that exemplify Imaging 3.0 methods in action. The registry will be launched later this year and will be offered through NRDR.

Next planned report to Council:

Res. 43 (2012) Radiation Safety Officer (RSO) Training

BE IT RESOLVED,
that the ACR, in collaboration with the AAPM and other stakeholders, provide models and educational materials for medical physicists, radiologists, radiation oncologists, and nuclear medicine physicians who provide RSO services.

Most recent action taken:
The final draft of the Radiation Safety Officer reference materials is being edited in preparation for launch on the ACR website in spring 2015.

Next planned report to Council:
Notification upon availability of materials, spring 2015

April 2015
