

NRDR Database Name	Data Submission Methods	Software	Additional Information
<b>CTC CT Colonography Registry</b>	Manual submission using our <a href="#">web-accessible forms</a> .		
<b>DIR Dose Index Registry</b>	Automated submission of DICOM data using <a href="#">TRIAD software</a> .	We will provide you with a link to download TRIAD once you complete at least one New Facility Registration and return a signed participation agreement.	
<b>GRID General Radiology Improvement Database</b>	<ol style="list-style-type: none"> <li>1. Manual submission using our <a href="#">web-accessible forms</a> for facility-level and physician-level aggregated data.</li> <li>2. Web-based flat file data upload for <b>exam-level data</b> (<a href="#">GRID Data specifications</a>).</li> <li>3. <a href="#">Web-based data upload</a> for <b>facility-level</b> and <b>physician-level data</b>.</li> <li>4. Electronic transmission using web services for exam-level data (<a href="#">see Certified Vendors</a>).</li> </ol>	<p>Certified vendors can generate GRID-compatible files for data transmission.</p> <p>Or, contact your vendor (EHR/RIS/Reporting system) or in-house IT department and ask if they can support GRID data submission.</p>	<p>If you want to use GRID measures towards MIPS participation, you must submit exam-level data.</p> <p>Automated submission of exam-level data to GRID may meet a Meaningful Use Objective for reporting to a clinical data registry.</p>
<b>IR Registry Interventional Radiology Registry</b>	<ol style="list-style-type: none"> <li>1. Automated submission of data using Health Level 7 (HL7) <a href="#">TRIAD software</a>.</li> <li>2. Web-based flat file data upload</li> </ol>	<p>Download TRIAD once you complete at least one New Facility Registration and return a signed participation agreement.</p> <p><a href="#">IR Registry Participation Steps</a></p>	
<b>LCSR Lung Cancer Screening Registry</b>	<ol style="list-style-type: none"> <li>1. Manual submission using our web-accessible <a href="#">Case Registration &amp; Exam forms</a> for facility-level aggregated data.</li> <li>2. Web-based flat file data upload</li> </ol>	<p>Certified vendors can generate LCSR-compatible files for upload or web-based data transmission. In-house IT systems may also become certified to submit data to the LCSR (<a href="#">LCSR User Guide, Section 4</a>).</p>	<p>Automated data submission to LCSR (not using web-accessible forms) may meet a Meaningful Use Objective for reporting to a clinical data registry.</p>

NRDR Database Name	Data Submission Methods	Software	Additional Information
	<p>(<a href="#">LCSR Data specifications, Section 4</a>).</p> <p>3. Electronic transmission using web services (see <a href="#">Certified Vendors</a>).</p>		
<p><b>NMD</b> <b>National Mammography Database</b></p>	<p>Web-based data upload</p>	<p><a href="#">Certified vendors</a> can generate NMD-compatible files for upload. In-house IT systems may also submit data to the NMD.</p>	<p>Data submission to NMD may meet a Meaningful Use Objective for reporting to a clinical data registry.</p>
<p><b>Qualified Clinical Data Registry (QCDR) Supported Quality Measures</b></p>	<p>QCDR participants can submit data to ACR for both MIPS and Non-MIPS measures for successful MIPS participation.</p> <p>ACR collects quality measure data in the following ways:</p> <ol style="list-style-type: none"> <li>1. Manual web based entry;</li> <li>2. Flat file/Excel file upload;</li> <li>3. Web services API; and</li> <li>4. HL7 message transmission and use of structured report templates</li> </ol> <p><a href="#">MIPS QCDR Web Resources</a> and select <b>How to Submit Data</b></p> <p><b>Note:</b> Data submission for NRDR “non-MIPS QCDR” measures are available through the relevant registry process, i.e. DIR, NMD, detailed in this Table.</p>	<p>To access the MIPS portal Log into <a href="#">NRDR Portal</a> and select <b>MIPS Participation</b></p>	<p>Consider measures to report in order to reach the required <b>6 measures</b> for each radiologist in your group when reporting as individuals, or for the group when reporting as a GPRO. The QCDR supports a combination of MIPS and Non-MIPS measures.</p> <p><a href="#">2017 MIPS Supported Measures</a> 2017 Non-MIPS QCDR Measures</p> <p><b>Note:</b> The 2017 Non-MIPS measures are pending CMS approval. We anticipate releasing this list in May 2017. These measures will span all six of the NRDR data registries and will be similar to the <a href="#">2016 Non-PQRS measures</a>.</p>
