**NYU LANGONE HEALTH
FAMILY & CAREGIVER UPDATE NOTE**

05/27/20
TIME: 1:19 PM

Family/Caregiver called by: Myles Taffel
Call Attempt: 1
Was family/caregiver reached: yes
Spoke to: Jane Smith

Health care proxy: yes

Discussion content: After reviewing the chart and participating in interdisciplinary rounds, I called Jane about her father's condition. Her father is doing better today. His COVID inflammatory markers have improved and he now only requires 2 L of oxygen. We expect him to be discharged home tomorrow. She would like to conduct a facetime call with him this afternoon. I have relayed this message via EpicChat.

Plan of Care Discussed in detail as above. All questions answered. Family/caregiver verbalized understanding

Language Assistance Needed? no
